

ASEAN GEOSPATIAL CHALLENGE 2022
IMPORTANT NOTES FOR PARTICIPANTS

Submission Guidelines

1. Participating teams are to A) Register on FormSG and B) Submit their project submission on the Judgify platform by **1st December 2021, 23:59 PM (GMT +8)**.

A) Registration on FormSG: Registration must be done through [here](#) (FormSG)

B) Project Submission: Team Representative to register and submit on [Judgify](#). We require only one submission per team

In addition to filling up the Submission Details (Summary of project details, how project meets judging criteria), the following documents must be submitted via the Judgify platform.

Documents to be submitted	Submission Details
Poster Submission	To submit one per team The poster submission (up to 2 pages) will be used as a presentation board to the judges to summarize your project. Poster size, style (use of infographic, charts, pictures) and content are left to the discretion of the team. All fonts used inside the poster submission should not be smaller than Calibri font size 12 and resolution to be at least 200dpi. (.pdf format only)
Team Photo	Group photo of all team members (.jpeg, .jpg, .png formats only)
Declaration Form on the Originality of Work	Duly completed and signed as a team (.doc, .docx formats only)
Declaration Forms on Student Identity	Duly completed and signed by each team member (.doc, .docx formats only)

2. Submission that has incomplete information or submitted after the stipulated deadline will not be accepted.

Rules and Regulations

1. The submitted project should evidently showcase the use of geospatial technology and information to support nations in achieving their Sustainable Development Goals (SDGs). Details about the SDGs, set out by the [2030 Agenda for Sustainable Development](#) (Figure 1), can be found [here](#).
2. Teams can determine their own challenge statement. The chosen challenge statement should support the SDGs. Teams are encouraged to tap on the additional resources contributed by the challenge partners for their project. Limited slots are available and on a first-come-first serve basis.
3. Each team is required to work on only ONE challenge statement and submit ONE *Project Submission*.
4. Each team must consist a minimum of TWO, to a maximum of FOUR participants.
5. Each team must nominate a team representative to represent the team for purposes of communication with the Organiser on all matters relating to AGC 22.
6. Participants are only allowed to participate in ONE project submission.
7. AGC 22 is open to all students who are enrolled on a full-time basis at an Institute of Higher Learning (Tertiary Institution or its equivalent) only.
8. The submitted project must be the team's original work and has not been previously submitted in another competition or published for any commercial purposes.
9. The team should own or procure the intellectual property rights (including copyright) subsisting in the Background IP and Foreground IP in their submitted projects, or they have the necessary authorisations, permissions and licences for the use of any Background IP and/or Foreground IP owned by third-parties. For more information, please refer to the Terms & Conditions.

10. Participants are encouraged to familiarise themselves with the judging criteria when working on their project submission.
11. Participants are encouraged to tap on the supporting resources that have been generously contributed by our challenge partners. For more information, please refer to the GeoWorks website.
12. Winners of AGC 22 (National and ASEAN level) will be announced and contacted via email.
13. Participants should adhere to all Terms & Conditions stated under AGC 22.
14. The Organiser reserves the right to disqualify any participant or teams who are found not adhering to the Rules and Regulations of AGC 22.

Judging Criteria

Participants are encouraged to familiarise with the judging criteria. Below are some guiding pointers and they are non-exhaustive.

20%

Challenge Statement & Relevance (Max 600 words)

How well does the challenge statement support the SDGs? Is it valid?
How well has the team demonstrated the relevance/ importance of their challenge statement (by situating it in the wider literature context)?
Are the target outcomes of the project stated clearly?

40%

Application of Geospatial Technology (Max 1000 words)

How has the proposed solution addressed the challenge statement?
How effectively has geospatial technology been used in the proposed solution?
What is the complexity of the geospatial techniques utilised?

20%

Creativity & Innovation (Max 600 words)

How innovative/ original is the proposed solution's use of geospatial technology?
How does the proposed solution differ from methods/ techniques currently employed in the geospatial domain?

20%

Sustainability & Applicability (Max 600 words)

How feasible is the implementation of the proposed solution?
How sustainable is the proposed solution (eg. financially, logistically)?
Are there metrics proposed to measure its long-term success?
Is the proposed solution applicable in other fields/ domains?
